Event Name: Prompted Pixels

Event description "ImageAI: The Next Level" is a cutting-edge event that challenges college students to push the boundaries of creativity and technology in image recreation. Participants will be immersed in a fast-paced environment where they must rely on their memory and AI tools to recreate images with precision and innovation. This event is designed to showcase the potential of AI in enhancing human creativity and problem-solving skills. Join us for an exhilarating experience that will test your abilities, inspire collaboration, and explore the limitless possibilities of AI in the realm of image creation. Get ready to take your skills to the next level with "ImageAI: The Next Level."

Guidelines/Rules and Regulations:

1. Participants will have a limited time to view an image before it is hidden.
2. Using AI tools, participants must generate prompts to recreate the image from memory.
3. The recreated image should capture the essence and details of the original image as   accurately as possible.
4. Participants are encouraged to experiment with different AI tools and techniques to enhance their image recreation process.
5. Judging criteria will include creativity, accuracy, use of AI tools, and overall presentation of the recreated image.
6. Participants must adhere to the event guidelines and rules provided by the organizers.
